

**IN THE SPECIFICATION:**

Please replace paragraph [0061] of the subject application as published (specifically, U.S. Publ. Pat. Appln. No. 2007/0125998), with the following paragraph:

[0061] Cyclic organopolysiloxanes suitable as liquid precursors for the method of the present invention include those having the general formula  $(CR''_2SiO_{2/2})_n$  wherein R'' is hereinbefore described, n is from 3 to 100 but is preferably from 3 to 22, most preferably n is from 3 to 6. Liquid precursors may comprise mixtures of cyclic organopolysiloxanes as hereinbefore defined.
